Chetan Kawarkhe

Full-Stack Software Developer (.NET & React.js)

Karve Nagar, Pune

+91-7447608077 | Chetankawarkhe@gmail.com | Linkedin | Github | indiedev.co.in

Result-driven **Full-Stack Software Developer** with 3+ years of professional experience engineering enterprise fintech applications using **C# .NET**, **ASP.NET MVC**, **ASP.NET Web API**, **SQL Server**, **Entity Framework**, and **React.js**. Proven track record in developing high-volume transaction processing systems, optimizing complex database queries, and designing cross-platform mobile apps using **React Native**. Adept in Agile methodologies, SOLID principles, and clean code architectures.

EXPERIENCE

Micromentis
February 2023 – June 2026

Full-Stack Software Developer — *Pune, Maharashtra*

- Engineered scalable backend architectures for enterprise FASTag payment systems using **C# .NET**, **ASP.NET MVC**, **Entity Framework**, and **SQL Server** database structures.
- Built and optimized robust full-stack processing pipelines handling over **50,000+ financial transactions daily** with high reliability.
- Designed and implemented secure, production-grade **RESTful APIs** and **ASP.NET Web API** endpoints for seamless backend system integrations.
- Optimized long-running SQL queries, stored procedures, and execution plans, boosting core data transaction performance by over **30%+**.
- Maintained real-time high-throughput transactional records adhering to strict system logic to ensure **99.9% data accuracy**.
- Integrated backend data contracts with frontend views utilizing **React.js**, **Razor Pages**, and JavaScript frameworks to increase application responsiveness.
- Architected financial ledger management logic for key fintech banking clients using advanced **Object-Oriented Programming (OOP)** concepts.
- Collaborated effectively within a high-performance cross-functional **Agile team** to execute sprint items, debug production systems, and deliver features on schedule.

PROJECTS

Mass Transit Management System (MTMS) | ASP.NET MVC, SQL Server, C# .NET, Bootstrap **2023 – 2026**

- Developed scalable full-stack modules to manage and log financial FASTag transactions in real-time.
- Implemented optimized indexing and filtering metrics allowing fast lookup across large data sets.
- Designed real-time tracking dashboards using frontend chart frameworks to monitor processing metrics.
- Utilized **LINQ** and optimized database queries to minimize network latency on complex data operations.

M-Connect | React Native, JavaScript, Tailwind CSS **2023 – 2024**

- Developed a cross-platform mobile application using **React Native** for vehicle status monitoring and tracking.
- Built secure token-based user authentication and state management workflows.
- Designed dynamic interface dashboards for viewing structured user account balances and application data.
- Refactored navigation workflows and layouts to enhance overall application performance and visual layouts.

EDUCATION

Sinhgad Institute of Technology, Lonavala
2018 – 2022

B.E. - Computer Engineering - ***CGPA: 8.7*** — *Pune, Maharashtra*

TECHNICAL SKILLS

Languages: C#, JavaScript (ES6+), SQL
Backend Frameworks: ASP.NET MVC, ASP.NET Web API, Entity Framework, LINQ, REST APIs
Frontend Development: React.js, React Native, Razor Pages, HTML5, CSS3, Bootstrap, Tailwind CSS, ChartJS
Database Systems: SQL Server, Stored Procedures, Query Optimization, Database Design
Software Concepts: OOP, MVC Architecture, API Integration, SOLID Principles, Microservices, Performance Tuning
Development Tools: Git, Visual Studio, VS Code, MSSQL Server Management Studio, Postman

CERTIFICATIONS

React.js Essential Training — ECMAScript 6+ — JavaScript Essential Training — CSS Essential Training
